

GOOD NIGHT!

It's said here in the Night Zoo that 'one must get by with their wits and their watts'. For you see, a Night Zookeeper must be smart and kind but also carry with them a torch to light their way.

The time has come for you to create your own Reading Torch and power it with careful reading. Your torch is like a sentence pointing you towards the future and explaining the strange world around you. With it you will meet more magical animals and discover more amazing places than an adventurous Amazonian ant, setting off on another adventure.

Colour 1 beam for every 15 minutes of reading
