

## Hunt for treasure

Design a treasure map of your home and then go hunting for treasure!

- Draw your own treasure map using the example on the right hand side as a guide or the template on the next page
- Draw the different rooms of your home on your map
- Hide some treasure coins around your home (use template coins below or make your own)
- Mark an **X** on the map where you have hidden the treasure coins
- Ask someone to go hunting for your treasure using your new treasure map to help them
- Swap around and get someone else to hide the treasure, marking an **X** on the map, so you can go hunting for treasure this time
