

# Create your own comic strip!

## Design your own comic strip story for the chance to win prizes!

Your comic strip can be about anything - it could be based on something funny that happened to you at school, or you could invent some whacky characters and make the story up!

You can find inspiration for your characters and story anywhere, or have a look at comic books and comic strips to get some ideas.

### Your comic strip should include:

- Drawn characters and scenes
- Speech bubbles to show when a character is talking
- Something funny or interesting that happens to your main character

## Tips for parents and carers to get involved!

Think up possible plot and character ideas together. You could both look for inspiration in books, magazines, movies and online.

Note down ideas or create a mind map

Ask your child to list their top 3 ideas and help them develop them by asking questions.

Can you think of something funny that might happen?

What could happen next?

When your child has decided on their characters and storyline help them plan what will go in each box of the comic strip provided.

## Enter for the chance to win a comic book subscription and book tokens!
