

# Make your own miniature book

## A step-by-step guide

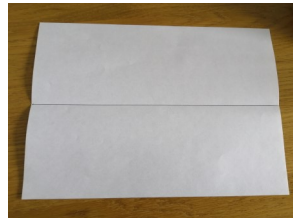

Make your very own mini book using this handy step-by-step guide. All you need is:

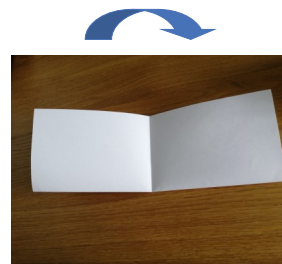

- One sheet of A4 paper
- Scissors

Start with your paper landscape like this one.

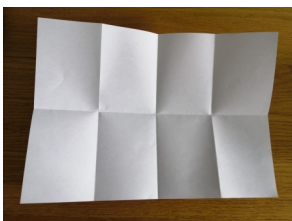

Fold it in half, bringing one long edge to the other.

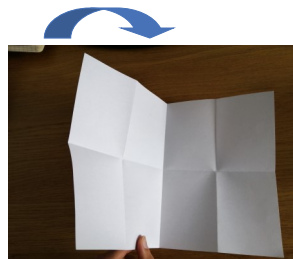

Fold it in half.

Fold it in half again and make sure all the edges are crisp.

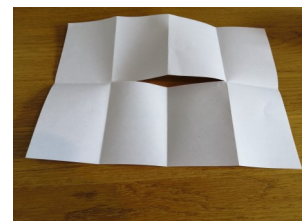

Unfold the paper so it looks like this.

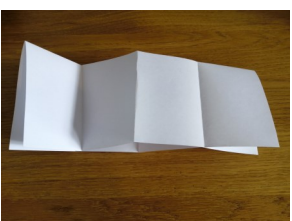

Fold it in half along the short middle crease and turn your paper so the fold is facing you.

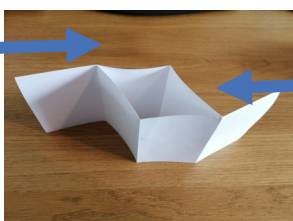

With the folded part of the paper facing you, use scissors to cut into the middle. **Stop** when you get to where all the folds meet to make a cross.

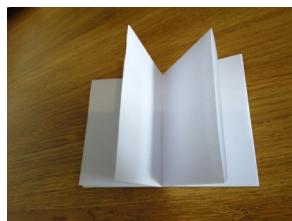

Unfold the paper again. You should have a hole in the middle that looks like this.

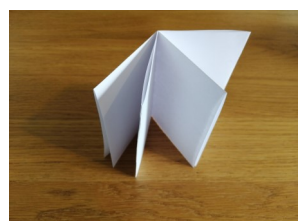

Fold your paper along the long crease again.

Push your paper together so it looks like this

Keep pushing until the you make a cross and fold the paper into a book.

Your book should now look like this and is ready for you to write your story.
