

Task 5: Where is the book set and how can I understand this setting better?

We know that SMART is set in Nottingham and a lot of the events in the story take place around the River Trent and the embankment which is very close to The Nottingham Emmanuel School.

In the box, draw your route to school. You might want to go for a walk to practise with your family and have a look at the building before your first day.

Is there any key information you need to jot down to help you with your route?

You can add the number of your bus, cost of a ticket or important road names to help you!
